Update for the MPAFAC on the National Marine Sanctuary Nomination Process

Matt Brookhart

NOAA's Office of National Marine Sanctuaries
May 2016
The Road to Nomination

For the first time in two decades, NOAA invites communities across the nation to nominate their most treasured places in our marine and Great Lakes waters for consideration as national marine sanctuaries.

In response to ongoing widespread interest from the public, NOAA has launched a new, locally driven sanctuary nomination process developed with input from more than 18,000 public comments. Throughout the nomination process, NOAA will be available to answer questions and provide guidance to nominating communities and other interested parties. NOAA will also update nominators on the progress of the agency’s review of their nomination.

PLEASE NOTE: Nomination is not the same thing as sanctuary designation. Designation occurs as a separate process that by law is highly public and participatory and often takes several years to complete.

1. Community Builds a Nomination

2. Community submits a Nomination to NOAA

3. NOAA’s Initial Review

4. Taking a Closer Look

5. Nomination Is Accepted

6. Nominated Area Added to Inventory

PLEASE NOTE: Addition to the inventory does not guarantee that a nominated area will become a sanctuary.
Inventory
– Areas that could be considered for designation
– Designation is not guaranteed
– Nominations expire after 5 years

Nominations *(date added to inventory)*
– Mallows Bay – Potomac River *(January 12, 2015)*
– Wisconsin – Lake Michigan *(February 5, 2015)*
– Chumash Heritage *(October 5, 2015)*
– Lake Erie Quadrangle *(February 22, 2016)*

– Three nominations have been declined and one withdrawn
NMS System
