Areas Federal Advisory Committee

Third meeting of the Marine Protected Areas Federal Advisory Committee; Public Meeting

Notice of open meeting.

Action:

- Notice of open meeting.

- The Commodity Futures Trading Commission.

- The Commodity Futures Modernization Act of 2000 (Pub L. No. 106-554), as amended by the Commodity Futures Modernization Act of 2000 (‘‘CFMA’’), Pub L. No. 106-554, which was signed into law on December 21, 2000, generally defines the term ECE by listing those ‘‘eligible contract participants’’ that are members of the International Petroleum Exchange (‘‘IPE’’) located in the U.K. and that are authorized and regulated by the U.K. Financial Services Authority (‘‘FSA’’), and local traders that are members of IPE located in the U.K. who are outside the scope of FSA regulation but who are registered with IPE. In addition, the Commission asks for comments with respect to whether any response to the petitions should be tailored specifically to Intercontinental and to the narrow circumstances presented in the petitions or whether a response should be more broadly based and, thus, also applicable to other trading facilities. The Commission invites public comment, moreover, or Intercontinental’s request for relief not only for those IPE members that trade on the floor as well as the IPE electronic platform, but also for those IPE members that trade only on IPE’s electronic platform. Finally, the Commission seeks general comment on whether ECE treatment should be extended to non-U.S. traders that are authorized by a non-U.S. exchange, but are not registrants of a national regulatory body and, if so, what standards the Commission should use to evaluate the qualifications of such persons.

- The category of eligible commercial entity (‘‘ECE’’) be expanded to include floor and electronic broker firms that are members of the International Petroleum Exchange (‘‘IPE’’) located in the U.K.
